Walk-In Clinics: Walk-in clinics provide medical care for people who do not have a family doctor or have one and are unable to reach them. No appointment is needed.

Family Health Team Clinics: When you visit a Family Health Team, you can meet with family doctors, registered nurses and other health care providers like dietitians and social workers. To make an appointment, you must first enrol with the Family Health Team.

Community Health Centres: CHCs can help you access primary care, such as doctors, nurse practitioners, social workers, dietitians and others. You can receive health care, education and advice, as well as access to resources from other community agencies. To make an appointment, you must first enrol with the CHC.
